All are cordially invited

"There are memories that time does not erase....
Forever does not make loss forgettable, only bearable"
(Cassandra Clare)

Dear Sir/Madam,

Mr. Shinoy George joined the Department of Science and Humanities, FISAT as a Mathematics faculty on July 1, 2013. Since then, he had been serving the Department in various capacities. He had proved his mettle as a successful teacher and an ardent researcher, making indelible impression in generations of students by his academic acumen and personal charisma.

His dedication and commitment to teaching had been widely appreciated. Mr. Shinoy's contribution as the teacher-in-charge of the Maths Club FISAT was vouched well by the College community. He organized several programmes to bring out the best in every student. Under his leadership, Maths Club FISAT made several laudable achievements. He trained a team of students and won many quiz contests conducted across the state. Mr. Shinoy had endeared generations of students through his unique personality.

Mr. Shinoy left for heavenly abode on March 21, 2018 leaving all of us in gloom. In his memory, Maths Club FISAT, Department of Science and Humanities has decided to conduct 'Shinoy Memorial Lecture' at 10 a.m on 22nd June, 2023 in the Main Seminar Hall. Dr. Resmi Varghese, Assistant Professor & HoD, Department of Mathematics, St. Xavier's College for Women, Aluva has kindly consented to be the invited speaker.

We solicit your esteemed presence and whole hearted support.
